Jane,

Has anybody responded to Tom to acknowledge his offer of funding? If not one of us (Bill, you or me?) should email him and tell him:

- we appreciate HQs offer of funds for the two projects proposed.
- we are interested in the funding even though the levels are far under what is needed to complete the projects.
- LA mentioned that on an economic analysis it would be challenging to just complete a portion, so they would be very interested in additional funds if at all available to complete the full project
- Forrest John will be the R6 technical lead for the NM project.
- Renee Bellew will be the R6 technical lead for the LA project.
- We will get the templates to Katie and Katherine by June 4th.

Let me know who you want to respond. Thanks,

Phil

Jane Watson

We are willing to help any way we can, but it looks like these are contracts managed out of HQ so all that will need to be done is for the technical direction to come out of the State and Jane's shop. Do you agree Jane?
